

ANJIT SURYAWANSHI

Software Developer (B.E)

📞 9399743807 @ anjit.sury1c11@gmail.com 🔗 <https://www.linkedin.com/in/anjit-suryawanshi> 📍 Noida, India

SUMMARY

"Results-driven Full Stack Developer with a Bachelor's in Mechanical Engineering and 2.5 years of experience in Asp.NET, SQL Server, C#, and Angular. Skilled in software development, problem-solving, and collaborative teamwork, with a passion for continuous learning and delivering high-quality solutions."

EXPERIENCE

Software Developer

Bajaj Formulations

📅 06/2023 - 03/2024 📍 Noida
Developed software solutions tailored to the pharmaceutical industry, optimizing processes and enhancing operational efficiency.

Associate Software Developer

Curitics Health Solutions Corp.

📅 01/2022 - 05/2023 📍 Noida
Developed and implemented software solutions for health-related projects, enhancing system functionality and contributing to impactful healthcare technology.

.NET Developer Trainee

Cylsys Software Solution Pvt. Ltd.

📅 06/2021 - 12/2021 📍 Gadarwara, MP.
Gained hands-on experience in .NET development, contributing to software solutions while learning key technologies and development practices.

EDUCATION

Bachelor of Engineering

RGPM, Bhopal

📅 07/2010 - 06/2014
📍 Bhopal, MP.

PROJECTS

Enterprise Resource Planning Project

📅 06/2021 - 01/2022 📍 Gadarwara, MP.
Tolia Group.

- Designed and implemented pages for the Quotation Report Module, enhancing user experience and report functionality by using .Net (MVC Framework).
- Supported data extraction processes, ensuring accurate and efficient data flow using SQL Server.
- Identified, troubleshooted, and solved operational bugs, improving system performance and reliability.

Curitics Health Solutions Products

📅 01/2022 - 05/2023 📍 Noida, India

Development of health solutions products.

- Developed and deployed health solution products, focusing on creating scalable and responsive features across all devices by using Angular Framework.
- Diagnosed and resolved bugs, ensuring seamless operation and a high-quality user experience.
- Collaborated with developers to identify and remove software bugs, enhancing system stability.
- Contributed to the design of robust, scalable applications using .Net core (EntityFramework) programming techniques.
- Optimized database operations, improving query performance and reducing data retrieval times.
- Developed detailed reports using SQL Server Reporting Services, delivering insights to stakeholders.

Bajaj Formulations Project

📅 06/2023 - 03/2024 📍 Noida, India
Project for Bajaj Formulations.

- Designed and integrated various modules, using .Net WebForm, enhancing system functionality and user experience.
- Utilized SQL Server for efficient data extraction and optimized database queries, improving data retrieval and processing speeds.
- Addressed and determined operational bugs, ensuring smooth system operation.
- Developed customized software solutions for diverse clients, driving increased satisfaction and repeat business.
- Created comprehensive project documentation, improving long-term maintainability and scalability.
- Developed comprehensive documentation for the software project, improving maintainability and future scalability.
- Used Git for version control and actively contributed to the CI/CD pipeline, ensuring seamless continuous integration and deployment.

SKILLS

ASP.NET	ASP.NET Core	
Angular	WebForms	
HTML	WEB API	
JavaScript		
Microsoft SQL Server		
JQuery	DevOps	LINQ
C#	Manual Testing	
MicroServices		
MVC Architecture		
MySQL Server	Rest API	
Git \$ Github	JIRA	
BitBucket	TypeScript	
CSS	Bootstrap	
EntityFramework		Excel
Linux	Windows	

CERTIFICATIONS

- 

Industrial Training – Unigraphics.
HCL CDC Centre, Bhopal | 4 Weeks
- 

ASP.NET Developer Training Program
Cylsys Software Solution Pvt. Ltd. | 6 Months
